

Was it intentional, did Spectrum shut down Yuma, AZ channels 11 and 13 just in time to block out the super bowl, then the Olympics, then the NCAA games and probably the Masters Golf tournament? Not only did they block out those channels, we received a rate increase as well! Just because they're a big company, they can do what they want, when they want and "to hell with the subscribers"? They say we can contract with another service whenever we want, but what if we pay for their services through our HOA? Who wants to pay twice? This has been going on much too long and something needs to be done and soon. When visiting the Spectrum office I noticed armed guards, WHAT????????????????????? Come on, how ridiculous that it's come to this!
